65	**Red Currant HEIR**	Red	Pea-size	Indet.	—

Days are from transplanting to first ripe fruit. Start seed ¼" deep indoors 6–8 weeks before last frost and transplant once nights stay above 50°F. **Indet.** (indeterminate) vines fruit until frost and need tall stakes or cages; **Det.** (determinate) plants stay compact and ripen over a shorter window. Pick when fully colored, and before heavy rain to limit cracking.

Disease Resistance Codes

ALS	Alternaria stem canker	**EB**	Early blight	**F**	Fusarium wilt
