125	**Musquee de Provence**	Green to brown	10–20 lb	Long vine	Ribbed; stores	—

Days are from direct seeding to harvest. Sow 1" deep once soil reaches 70°F; for Halloween, count back from mid-September. **Long vine** types need 10–15 ft; **semi-bush** and **compact** types fit 4–6 ft. Harvest when the rind is hard and fully colored.

Disease Resistance Codes

PM Powdery mildew

Curing & storage

Cure pumpkins in the sun for 7–10 days, then store at 50–55°F. Varieties marked stores well keep for months.

Bigger pumpkins

For giants, keep one fruit per vine, feed regularly and water deeply. Set fruit on boards to prevent rot.

Watch for

Squash bugs, vine borers and powdery mildew. Rotate beds; varieties marked PM tolerate powdery mildew.

Cinderella

Warty Goblin

Variety Notes

F1 Hybrid seed
AAS All-America Selections winner
ORG Certified organic seed
HEIR Heirloom, open-pollinated
